MEMORANDUM FOR:

SUBJECT: Crew Chiefs - Watertown Strip

STAT

The problem of placing an L-20 and C-47 crew chief on temporary duty at Watertown Strip was discussed with [redacted] today. He feels that he will be able to procure these individuals through Belling and suggests that you write a memorandum stating in the most complete detail the qualifications of these individuals. My recommendation is that we get two crew chiefs qualified on the C-47, and this qualification should enable them to work on both the L-20 and C-45, as necessary. In addition to the requirements that may be laid on by Security, I believe we will be better off if we will obtain these men on a voluntary basis.
